Don – thanks for the response. The approval package for the Annual report has been signed, and will be mailed out this week. With the changes to Oregon's structure we had to make sure we were sending it to the right person.

I am working on the Funding Recommendation at the moment.

Martha, attached is the most recent (5-27-2014) copy of the 2014 Final Draft Oregon Nonpoint Source Management Program Plan. We do not place draft copies of documents on our website unless it is going through a DEQ public review. We will post the NPS Plan once it is final, not as draft at <http://www.deq.state.or.us/wq/nonpoint/implementation.htm>.

I also want to thank you for talking on Friday to get an update on where EPA Region 10 and you are with the approval of both the FINAL DRAFT Oregon Nonpoint Source Pollution Program 2013 Annual Report and the 2014 Final Draft Oregon Nonpoint Source Management Program Plan. Please let me know if there are corrections or any more information you would like to add on the progress of both documents.

For the 2013 Annual Report you said that you set as your major priority the preparation of and sending to Oregon a letter releasing the 319 funds. I see in your most email to Ivan Camacho that the package for the NPS Annual Report has been signed and you wanted to verify that it should be sent to Greg Aldrich. This is in response to the Request for Financial Assistance that Ivan Camacho sent a couple of weeks ago. The letter will also state EPA's approval of the 2013 NPS Annual Report and be similar to Rick Seaborne's previous letters.

**Subject:** Question

Don – I am putting together the materials to mail out the NPS Plan to the tribes and I want to make sure I have the latest version. The last updated version is 3/7/14. If you have a later version please send it to me.

Also do you have an address for where the plan is posted on DEQ's webpage?

Martha
